# ABOUT COMPANY

For over 27 years, Thermal Wire and Cable, LLC has been a leading provider of high-performance wire and cable solutions designed to withstand extreme environments and demanding applications. With decades of expertise, we specialize in manufacturing custom-engineered cables that meet rigorous industry standards, serving sectors such as aerospace, defense, energy, and industrial automation.

Our commitment to quality and innovation drives us to deliver reliable, durable, and efficient products that excel in high-temperature, high-voltage, and hazardous conditions. By combining advanced technology with personalized service, Thermal Wire and Cable, LLC ensures that clients receive tailored solutions that exceed expectations.

Partnering with us means gaining a trusted ally who understands the complexities of critical systems and delivers results that power success.

# COMPANY VISION

**01**

## **Innovative Excellence**

At Thermal Wire and Cable, LLC, we are committed to staying at the forefront of technological advancements by continuously innovating and enhancing our wire and cable solutions. Our focus is on developing high-performance products that thrive in extreme conditions—such as high temperatures and high-voltage applications—while exceeding industry standards. Through ongoing research, development, and investment in cutting-edge materials and manufacturing processes, we aim to set new benchmarks in product reliability, safety, and durability.

**02**

## **Customer-Centric Approach**

We believe that strong partnerships are built on trust, reliability, and a deep understanding of our customers' unique requirements. Our vision is to foster long-term relationships by providing personalized solutions tailored to meet the specific needs of diverse industries, including aerospace, defense, energy, and industrial automation. By offering exceptional customer service, timely delivery, and continuous support, we strive to become a trusted partner that clients can rely on for mission-critical applications.

**03**

## **Sustainable Growth**

Thermal Wire and Cable, LLC is dedicated to sustainable growth by expanding our global presence while maintaining a strong commitment to quality, safety, and environmental responsibility. We aim to leverage our expertise to enter new markets, develop innovative solutions, and enhance our production capabilities while minimizing our environmental impact. Our vision includes fostering a culture of continuous improvement, ensuring that every stage of our operation aligns with best practices in sustainability, compliance, and corporate responsibility.

# OUR SERVICES

## CUSTOM CABLE DESIGN AND ENGINEERING

Thermal Wire and Cable, LLC specializes in designing and engineering custom wire and cable solutions to meet the specific requirements of diverse industries. Our team of experts collaborates closely with clients to understand their unique needs, ensuring that each product is engineered to withstand extreme environments, high temperatures, and harsh operating conditions. From prototype development to full-scale production, we deliver tailored solutions that align with industry standards and exceed performance expectations.

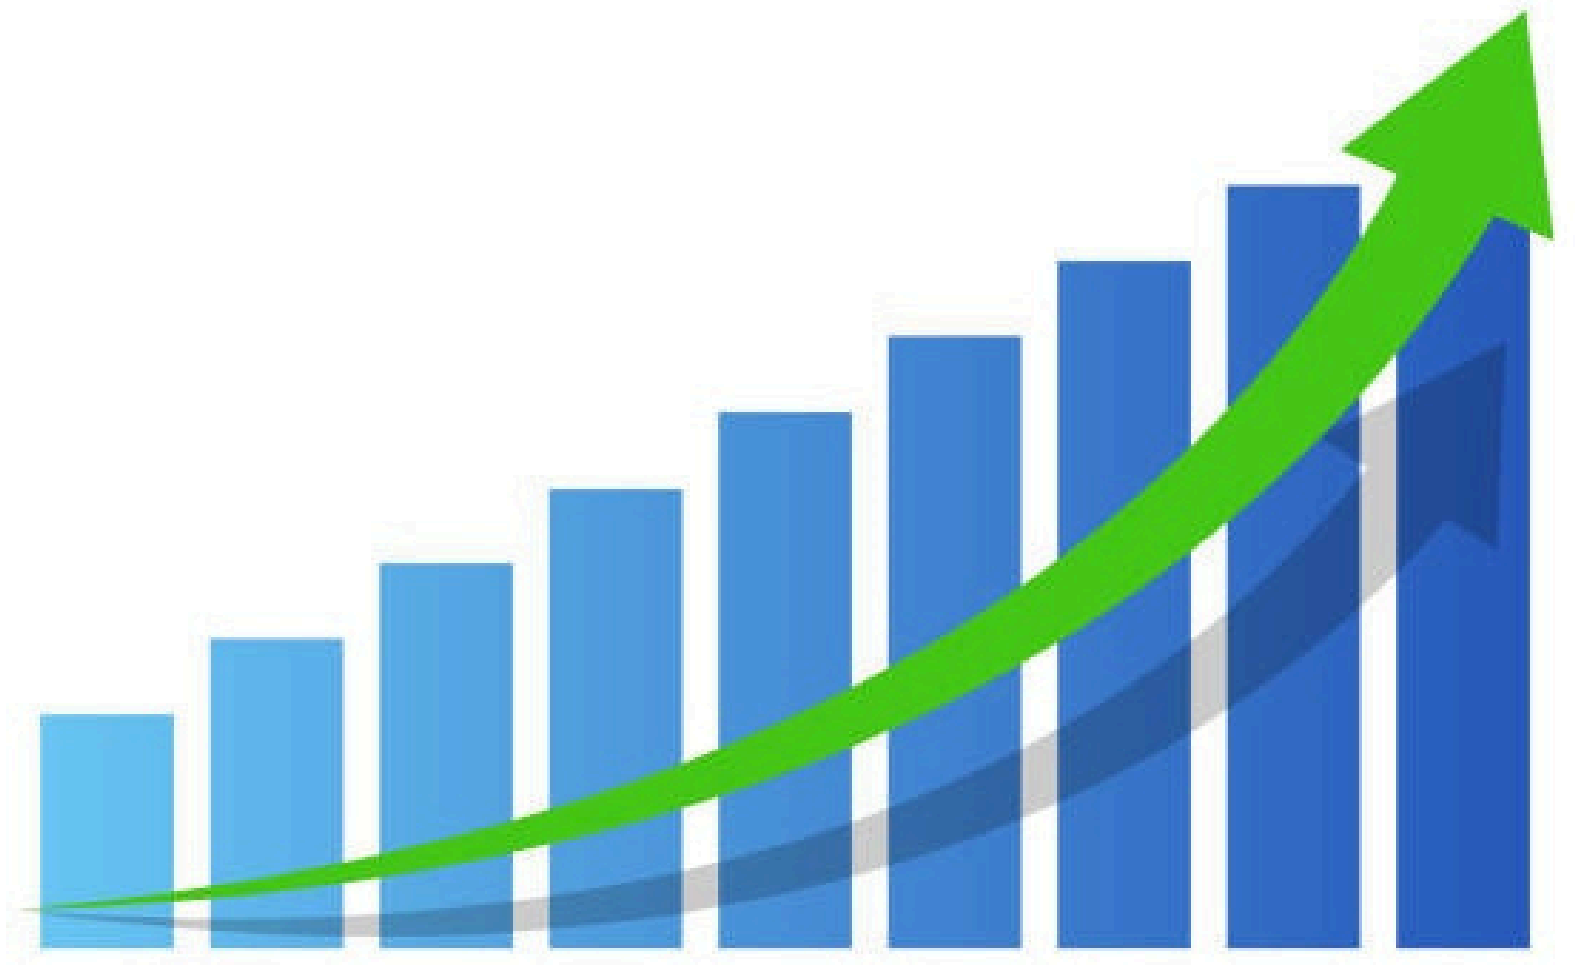

## HIGH-PERFORMANCE CABLE MANUFACTURING

We offer precision manufacturing of high-quality wire and cable products designed for mission-critical applications. Utilizing state-of-the-art materials and advanced production processes, we ensure that our cables maintain superior durability, flexibility, and resistance to heat, chemicals, and mechanical stress. Our manufacturing capabilities enable us to produce a wide range of specialized cables that serve industries such as aerospace, defense, energy, and industrial automation, ensuring optimal performance in even the most challenging environments.

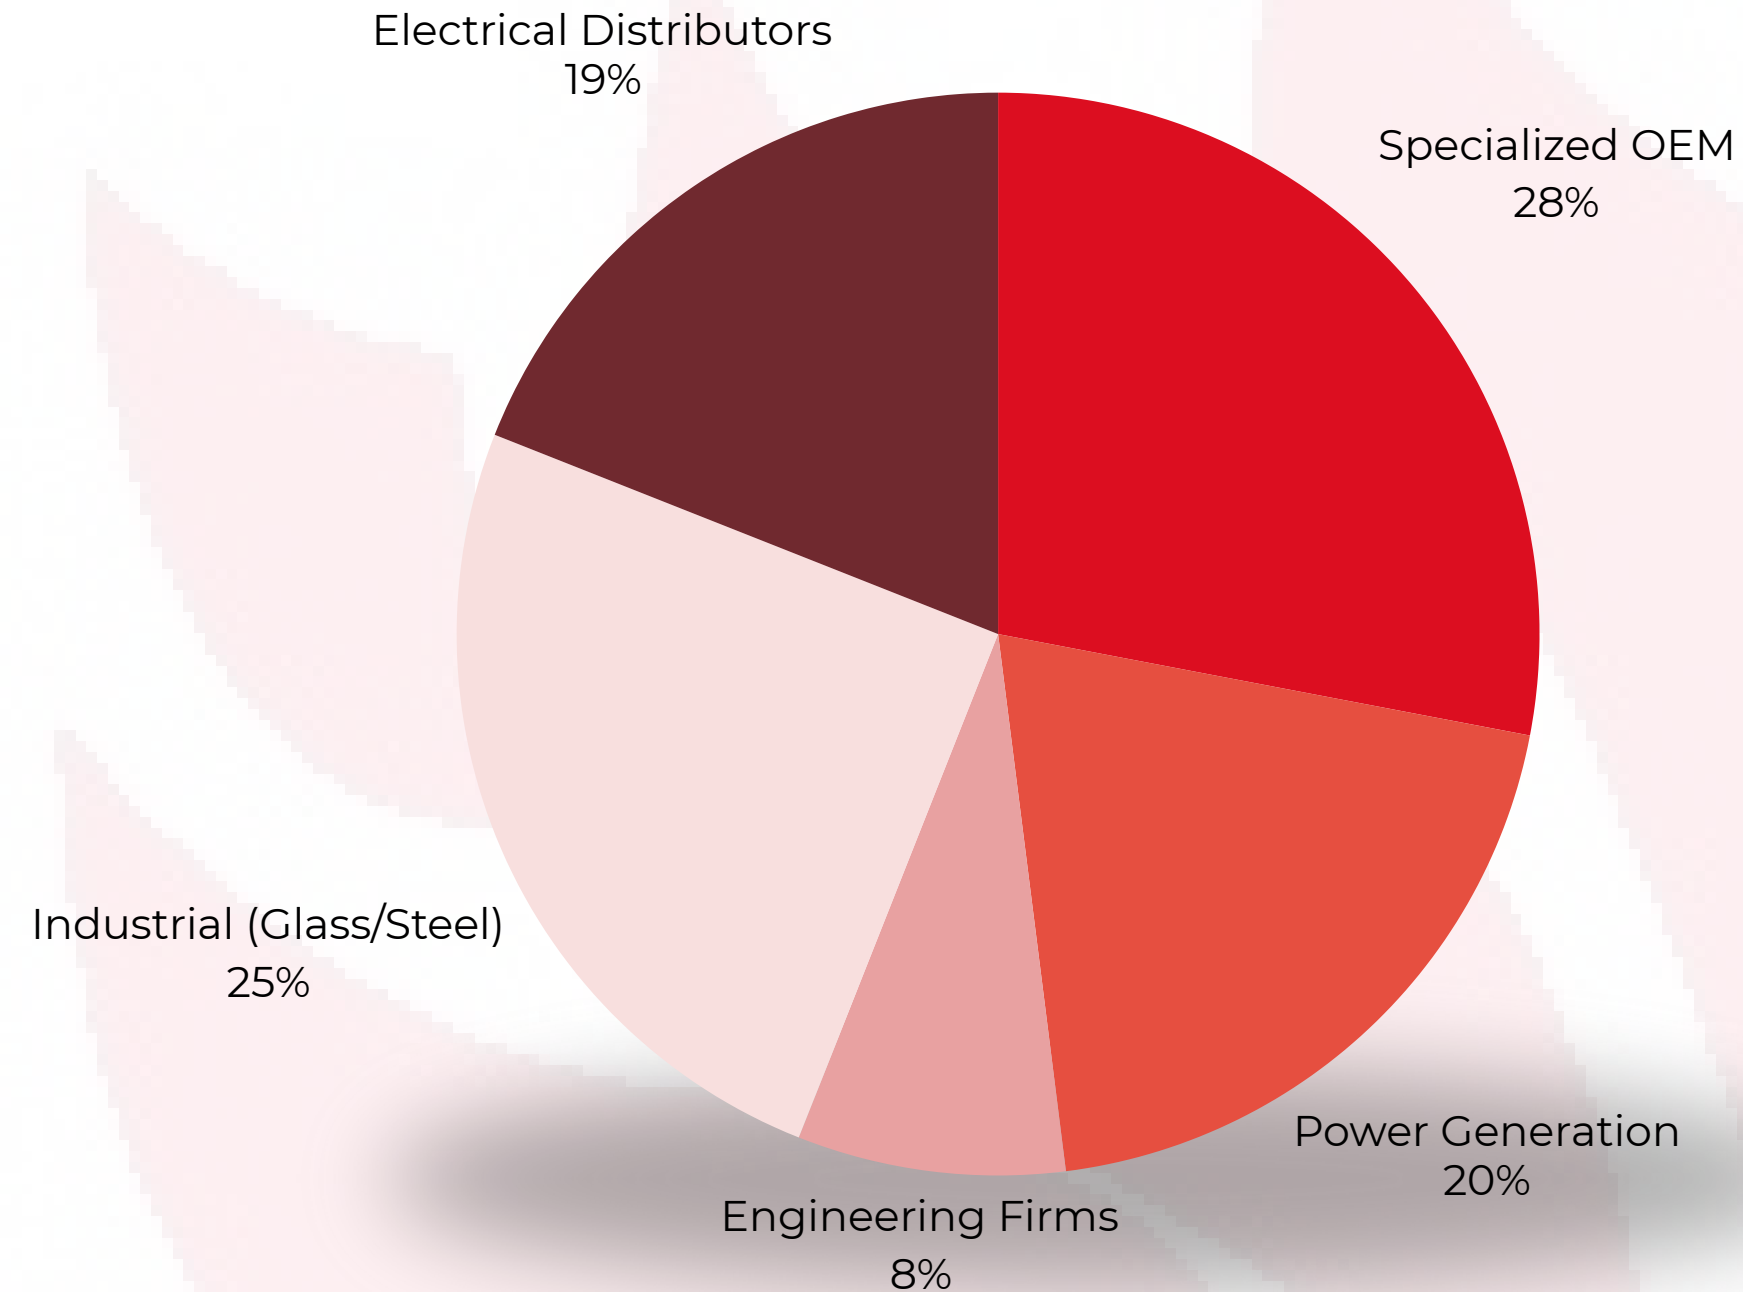

# OUR PERFORMANCE

Thermal Wire and Cable, LLC has built a reputation for excellence over the past 27 years, delivering high-performance wire and cable solutions that consistently meet the rigorous demands of diverse industries. Our unwavering commitment to quality, innovation, and customer satisfaction has driven continuous growth, with annual sales now exceeding \$10 million. This sustained success is a testament to our ability to adapt to changing market needs, maintain strong client relationships, and deliver reliable, custom-engineered solutions that perform under the most challenging conditions. As we continue to expand our capabilities and global presence, we remain dedicated to exceeding expectations and powering success for our clients.

# CUSTOMER BREAKDOWN

THERMAL WIRE AND CABLE CUSTOMERS INCLUDES INDUSTRIES AND SECTORS THAT REQUIRE HIGH-PERFORMANCE CABLES CAPABLE OF WITHSTANDING EXTREME TEMPERATURES. THESE INCLUDE SECTORS SUCH AS MANUFACTURING, AUTOMOTIVE, AEROSPACE, ENERGY, AND GLASS/STEEL MILLS. CLIENTS MAY RANGE FROM LARGE CORPORATIONS TO SMALLER BUSINESSES THAT NEED RELIABLE, DURABLE WIRING SOLUTIONS FOR THEIR OPERATIONS. THE CUSTOMER BASE IS OFTEN DIVERSE, WITH A FOCUS ON COMPANIES THAT PRIORITIZE QUALITY AND SAFETY IN ENVIRONMENTS WHERE TEMPERATURE EXTREMES ARE A CRITICAL FACTOR IN PRODUCT PERFORMANCE.

# WHAT WE OFFER

Thermal Wire and Cable stands out among its competition by offering a unique blend of high-performance products, exceptional customer service, and industry-specific solutions. With a focus on cables designed to withstand extreme temperatures, they cater to industries such as aerospace, automotive, energy, and telecommunications, where performance and reliability are non-negotiable. Thermal Wire and Cable goes above and beyond by offering quick delivery on custom cables and proactively stocking customer-specific products, ensuring fast access to essential materials. Their commitment to quality, innovation, and tailored solutions allows them to meet the unique needs of each client, setting them apart as a leader in the field.

## QUICK DELIVERY ON CUSTOM CABLES

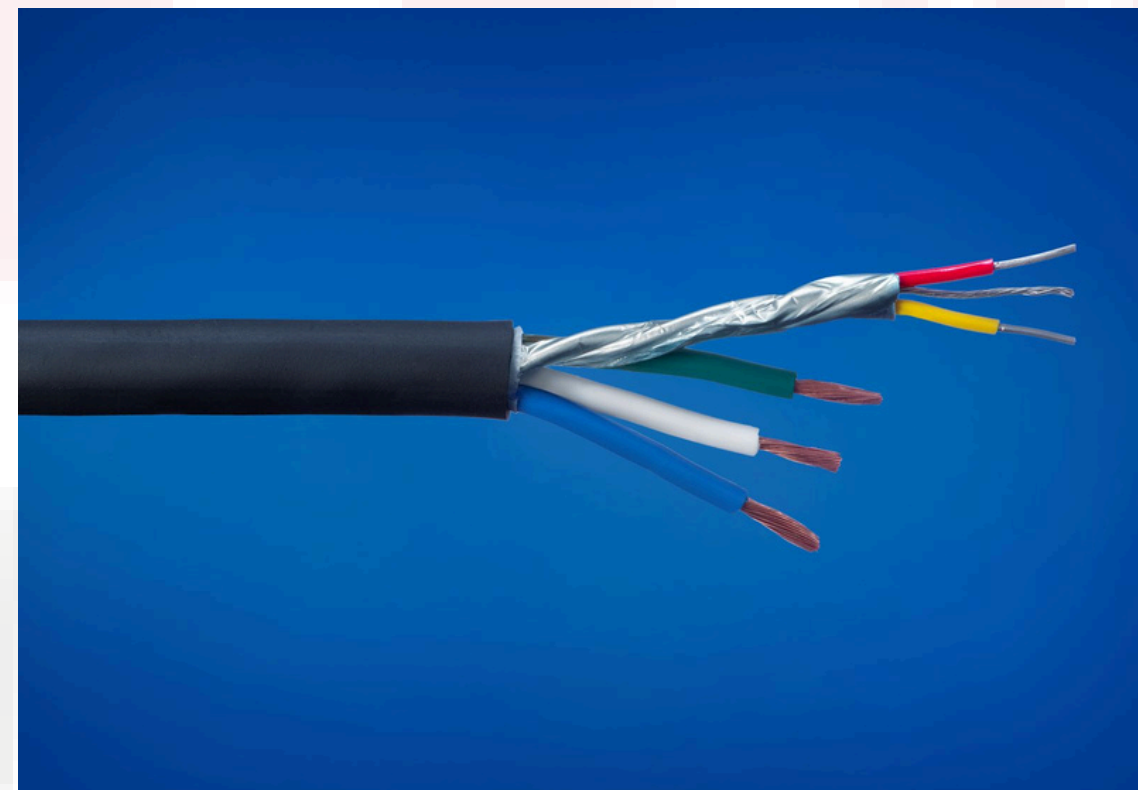

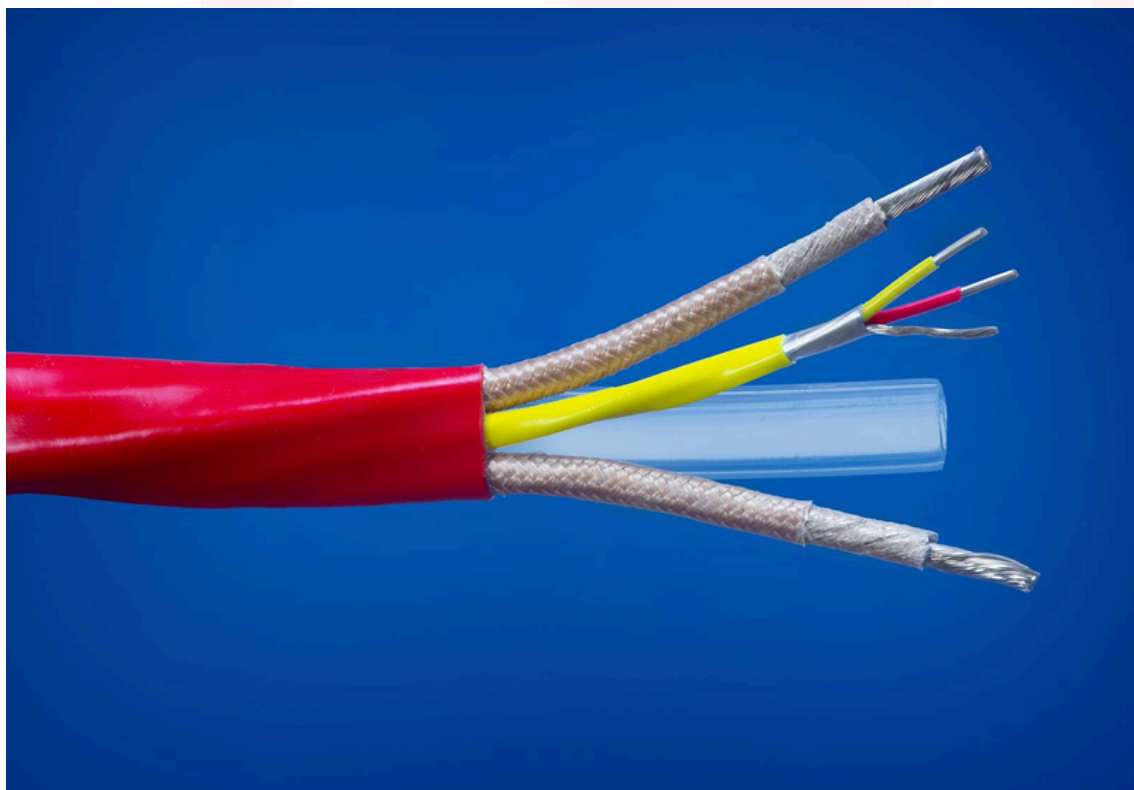

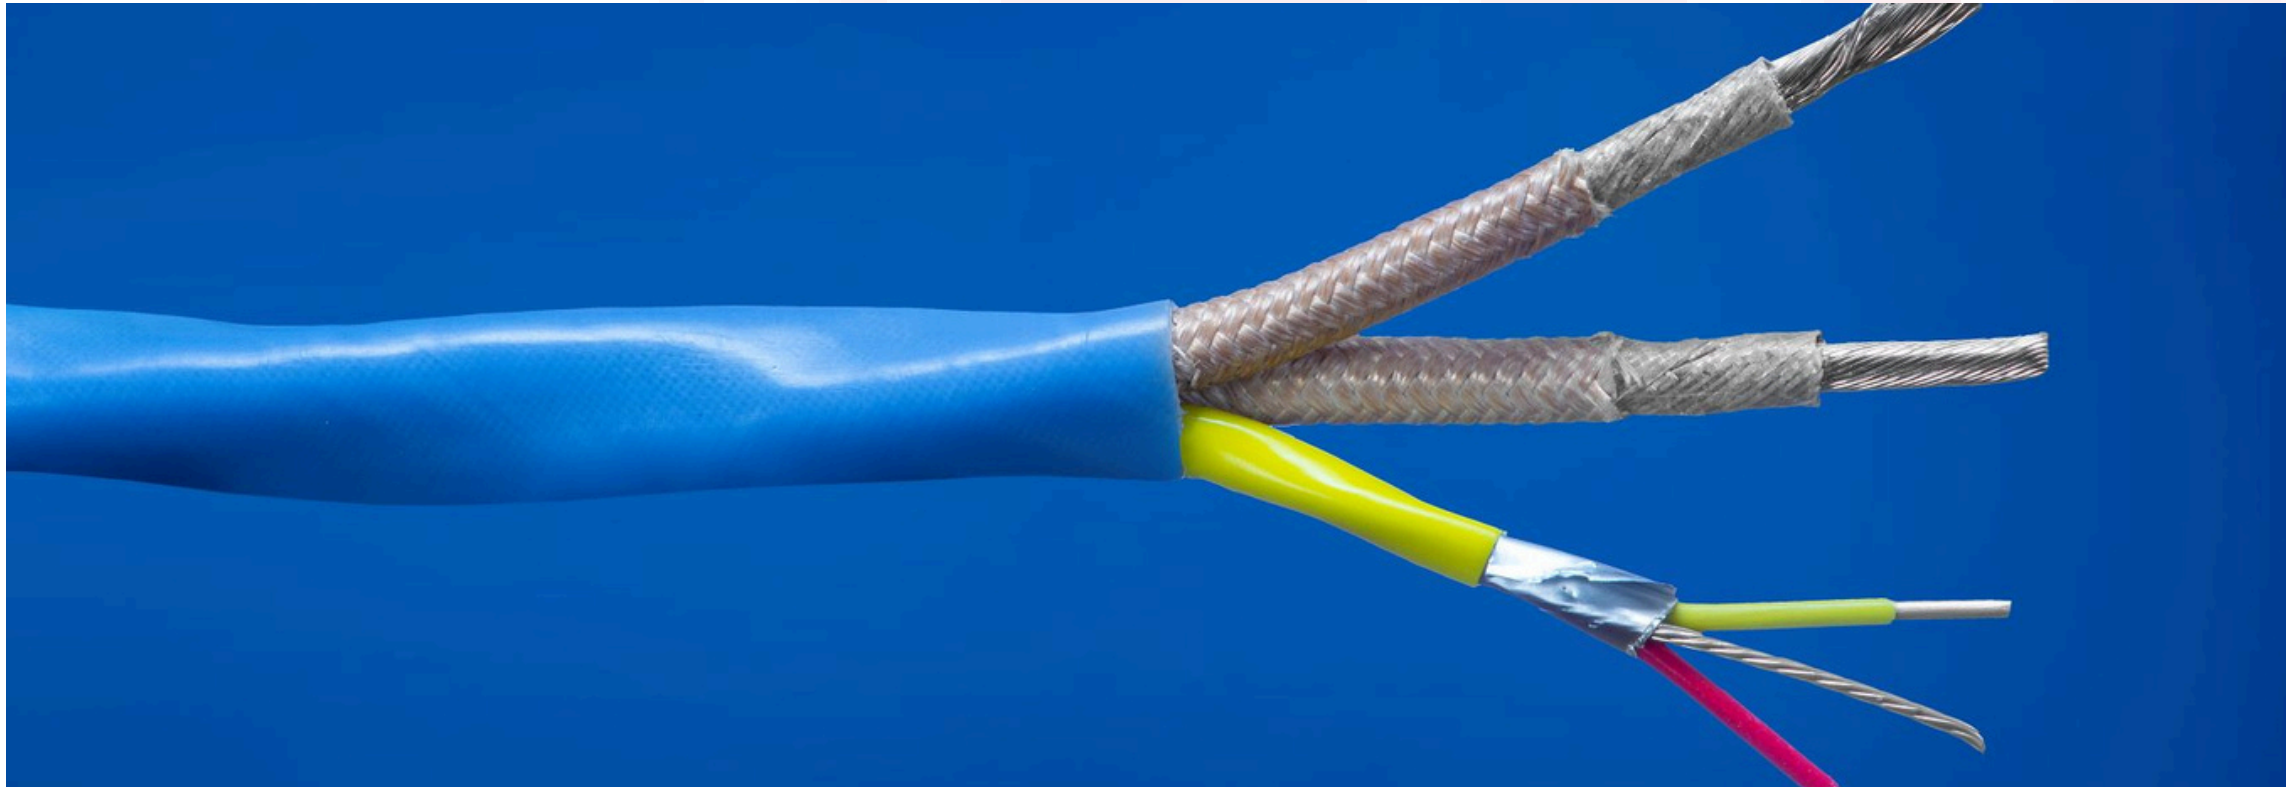

Thermal Wire and Cable stands out from its competitors by offering fast turnaround times for custom cable orders. Their efficient manufacturing process, combined with strong logistical capabilities, ensures that clients receive tailored cable solutions on time, even for urgent projects. This rapid delivery is particularly crucial in industries where downtime can be costly, allowing customers to maintain smooth operations without delays. Whether it's a unique material requirement or a special design, Thermal Wire and Cable prioritizes quick production and delivery without compromising on quality, giving their customers a competitive edge.

## STOCKING CUSTOMER-SPECIFIC PRODUCTS

Thermal Wire and Cable differentiates itself by offering the unique service of stocking customer-specific products. By maintaining inventory tailored to the individual needs of their clients, they ensure immediate availability of commonly used cables, reducing lead times and providing a seamless supply chain. This proactive stocking approach helps clients avoid delays and ensure they always have the right materials on hand, especially for ongoing or high-demand projects. It provides customers with greater flexibility and reliability, making it easier to meet their production schedules without interruptions.

# OUR PORTFOLIO

Thermal Wire and Cable offers high-quality products that are UL and CSA rated, ensuring compliance with strict safety and performance standards. Our cables undergo rigorous flame tests to verify their ability to withstand extreme conditions. This level of certification makes our products ideal for industries where safety and reliability are critical, such as aerospace, automotive, and energy. With a focus on durability and performance, Thermal Wire and Cable's products provide peace of mind in demanding environments.

We specialize in custom-made high temperature cables to meet your needs!

# SPECIALIZED OEM

## CUSTOMERS

**Honeywell**<sup>®</sup>

**JE JACOBS**  
Engineering Group

**EXXON Mobil**

**GBA<sup>™</sup>**  
**CORONA**

## APPLICATIONS

Cryogenic motors

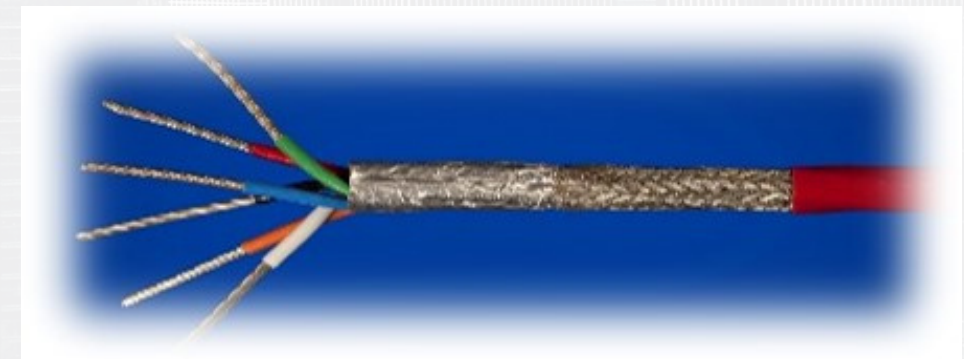

Vibration monitoring

Temperature  
Measurements Burners

Conductors for General  
Wiring NEC

SMT reflow oven

## OUR SOLUTIONS

# INDUSTRIAL

## CUSTOMERS

## APPLICATIONS

**Blast Furnace Wiring**

**Power Plant Technology**

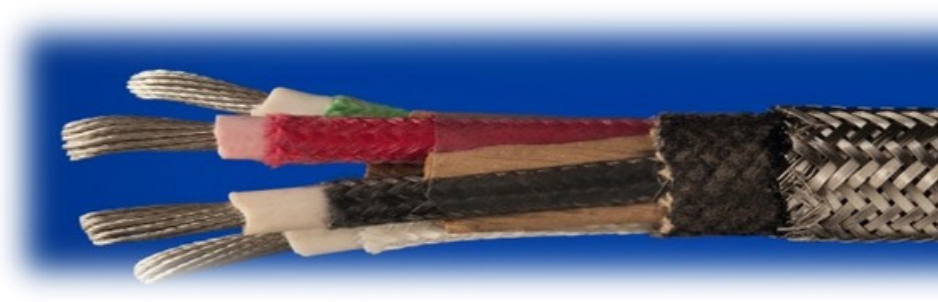

**Glass Melting**

**Heavy Industry**

**Heating and Curing**

**Lamps and Luminaries**  
**Steel Mills**

## OUR SOLUTIONS

# TRANSPORTATION

## CUSTOMERS

**SIEMENS**

**GRUNDFOS**

**Rolls-Royce**

## APPLICATIONS

**Gas Turbine Cable**

**Ignition Cables for Motors**

**Fire Suppression**

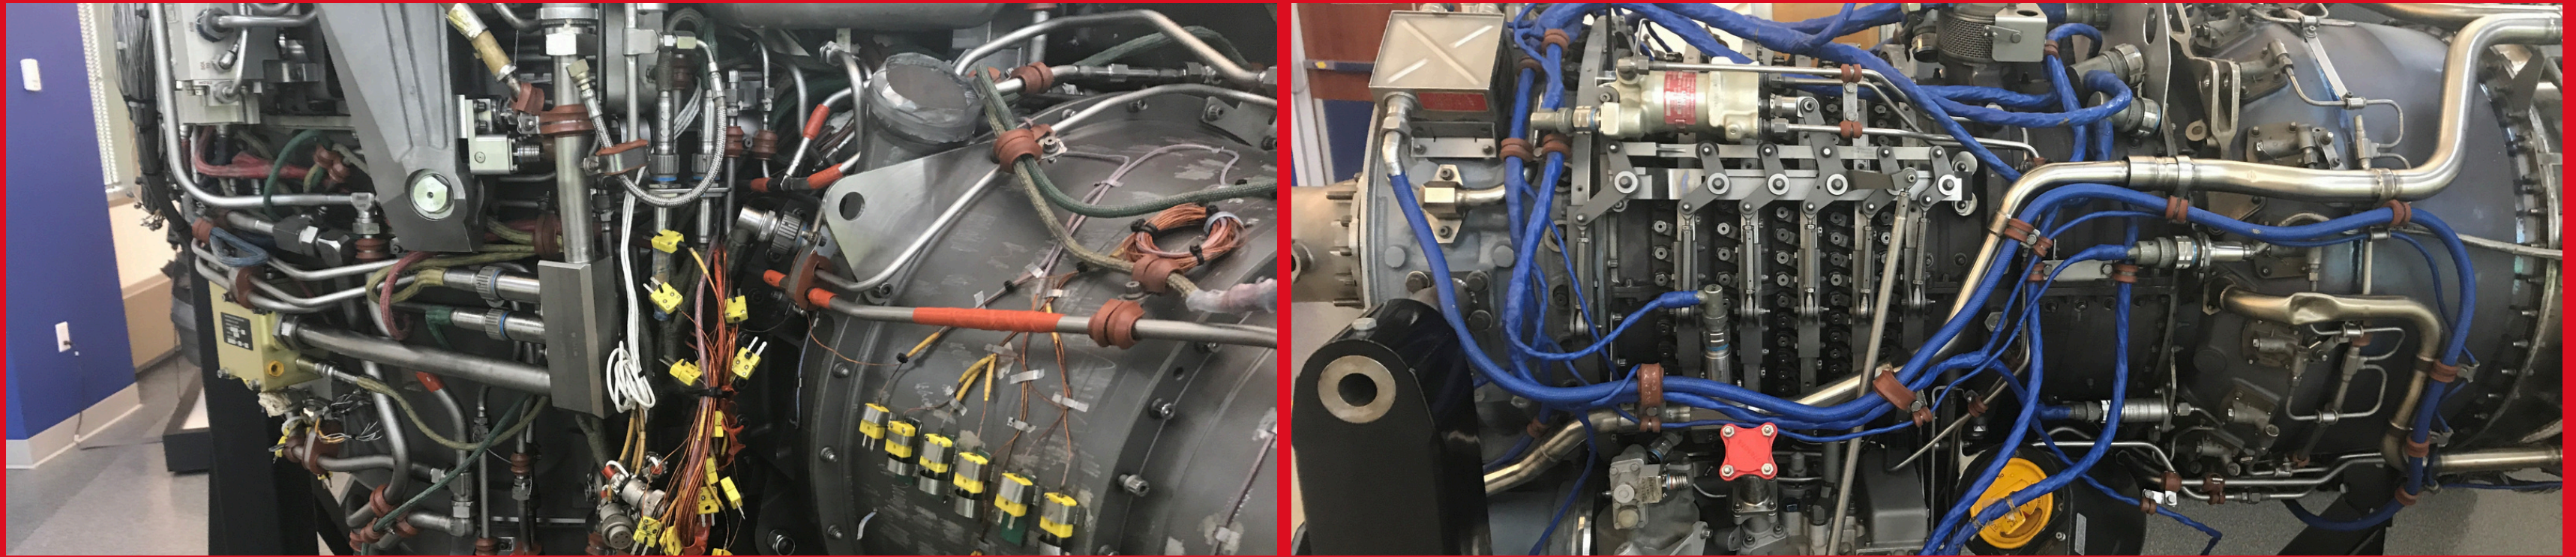

**Traction Motors**

**Fluid Resistant Teflon  
Cables**

## OUR SOLUTIONS

# FUTURE PLANS

- **New product development**
- **Investment in Technology**  
NEW MANUFACTURING FACILITY IN  
TULSA, OK WITH TAPING, BRAIDING,  
AND CABLING CAPABILITIES.
- **Strengthening Customer Relationships**
